SERPENT OCCASIONAL TABLE

The serpent table was inspired by an ancient iron fragment; a snake of primitive form yet great character with remnants of colour that hinted at its poly chromed past. The resulting table is decorative but formal and sits with ease in a myriad of settings.

Height of table top 660 mm (25.98") and height to top of serpent head 690mm (27.17") x 660mm (25.98") OD
