THE ALCHEMIST TABLE

A large sculptural table that can be configured for serving or dining. British stone top held in heavy stepped and banded steel rim. The base consists of steel moulding that retains four perforated panels of forged brass sheet and forged steel ring mounts. Four sculptural and naturalistic gilt and cast bronze feet support the base with similar mounts supporting the top. The latter mounts can be removed to achieve dining height. Inspired by medieval altars and alchemical sign and symbol, the table is part sculpture part furniture.
