## DADA SOFA AND CHAIR

Created for Collect at Somerset house in 2020, the Sofaman (Sofa + Ottoman) is inspired by the architecture of traditional upholstery with an injection of visceral bronze elements, rope-like in nature. The deconstructed upholstery exposes raw materials: jute, beech, webbing and wool. A nod to maritime materials; gunny sacks, decking, rigging and trade. Topped with a beautiful soft lamb's fleece for curling-up-comfort.
