MAGNOLIA BRANCH

A highly sculptural Magnolia branch ceiling light. Hand forged and shaped to order, the characterful branches and generously proportioned leaves, are inspired by the Magnolia Tree. Shown here in atmospheric white with russet blush and gilt high lights.

This piece fits neatly over an 8 seater dining table and is infinitely customisable in size, shape and colour for your space.

We have created smaller versions as well as giant versions that span entire ceilings or cascade down staircases.

Dimensions: H1300mm x L1900mm x D850mm
